

Concerto

Small, Smart and Affordable

Concerto is a highly compact, robust device for gathering and recording employee attendance details. It allows for up to 4 clockings per day and its complementary clock cards can hold up to one month's clocking data per employee.

For just £250 + VAT you can get a fully functional **Concerto** clock with 100 clock cards and a rack to hold 20 employees' cards. You can order your clock and top-up supplies from our online catalog @ <http://www.clearsystems.co.uk> or by calling us on 01386 793017.

The Concerto Terminal

- A cleverly designed, attractive, robust case with grey and black finish
- A large LCD time display unit, clear and easy to read
- Accurate time recording with print position (4 per day)
- Operates weekly, bi-weekly & monthly pay periods with automatic scanning of both sides of card to reduce the possibility of recording errors
- Uses the latest space alignment technology to ensure precise printing in the exact position
- Up to 24 minute-programmable internal melody announcements indicating start, stop times and lunch breaks
- Adjustments for leap years and number of days in each month are made automatically
- Automatic power retention of time and position in case of power failure
- Manual selection of in/out clocking position
- Supplied with wall mounting bracket and unique card rack, which can be expanded as staff numbers increase, either horizontally or vertically
- Simple to operate, just select position and insert a time card

Supplied programmed ready for use with mains power adapter – only needs a power point, can be desktop or wall mounting.
