

# MULTIQEY

## Access Control Door Kit

**MULTIQEY** is a stand-alone single-door access kit, with robust external Magstripe Card Reader, 50 cards, power supply, electric door strike, connector box, exit switch, screws and clips. In fact all that is required apart from the hardware and the joinery work for the door itself.

The access cards used with **MULTIQEY** are also used with the *EasyTime* Time Recording System if required meaning the same badge is used for both access control & attendance management.

### ***HOW IT WORKS***

When you buy a **MULTIQEY** kit you get everything you need to equip a single door with a swipe card based access controller. Each person authorised to enter through the door gets a badge, similar to a credit card but generally more robust. This can be kept in wallet or purse or worn on a pocket using a clip or holder or worn round the neck on a chain or lanyard. External to the door there is a weatherproof card reader which will have been programmed with the details of which cards are valid to release the lock on the door.

When a valid card is swiped through the reader it throws a switch that releases the lock and allows the door to be opened. If the card is not valid it will light a red warning light and prevent the lock opening. It's that simple!

If a badge is lost it can be cancelled and if it turns up again it can be reinstated so it is very easy to manage. If you have more than one door then the same card can be used with any number of **MULTIQEY** controllers but you can also restrict which doors an individual badge will gain access to. So if you had two doors person A could be restricted to door #1, person B to door #2 and person C could go through either.

### ***COSTS***

The **MULTIQEY** Kit containing card reader, 50 cards, power supply, electric door strike, connector box, exit switch, screws and clips costs just £345. Extra cards cost £35 per 25.

Orders can be placed online at our web site [www.clearsystems.co.uk](http://www.clearsystems.co.uk), by calling 01386 793017 or sent to the address below. All items are ex stock and prices exclude VAT and carriage.
